Introduction	<i>Recent graduate from computer science at LTH. Likes to learn new things and apply both new and old knowledge when tackling new challenges. Can work with all kinds of people and understands the importance of a well functioning social dynamic at the workplace.</i>	
Education	Master of Science in Engineering, Computer Science and Engineering Started 2016 - Finished April 2023 <i>Faculty of Engineering (LTH), Lund University, Lund</i>	
Skills	Languages: Swedish - Native tongue, English - Fluent, German - Basic. Programming languages: Python, Java, Typescript, C, C++, Haskell, Scala, Mat-Lab, HTML, CSS, SQL, PHP Software related skills: Agile development, Agile Coaching, Testing, AI, Deep-learning, configuration management, Waterfall, Spring Boot, REST API, CI/CD pipeline. Programming tools: JUnit, GIT, Gerrit, CVS, Perforce, Jenkins.	
Experience	Software Engineer at Axis communication I currently work as a Software Engineer at Axis Communication in Lund	August 2023 -
	Master's thesis at Alstom I conducted my master's thesis at Alstom Hässleholm in the area of CI/CD. The thesis aimed to solve problems related to long feedback loops, by introducing a faster build and test pipeline. It was finished in early April 2023.	2022-2023
	Summer intern at Axis communication Worked on Axis take on Backstage (an open source platform by Spotify for building developer portals) as a Fullstack developer.	Summer job 2022-2022
	Summer intern at Axis communication Was part of a two-man team that created a camera application from the ground up that used an ML model that we trained.	Summer job 2021 - 2021
	Annotator at Axis communication Annotated videos that would be used for ML purposes.	Part time 2021-2021

	Groundskeeper at the church in Sjöbo	Summer job 2018 - 2020
	Performed various tasks requiring teamwork, diligence and optimising work processes.	
	Strawberry salesman at Eriksgården, Sjöbo	Summer job 2017
	Managed a strawberry stand on my own for a summer.	
	Janitor at Unique Dental Ystad	Summer job 2015
	Performed various tasks requiring teamwork, diligence and optimising work processes.	
Student engagement/commissions of trust	Head of the Café & board member, D-guild TLTH,	2019-2020
	The main responsibility of the head of the café at the D-guild is to manage a student café on a daily basis. This includes leading a group of approximately 15 people. Active participation in board work gave insight into how to run a large organisation.	
	Union Representative Council Member TLTH	2020-2021
	I was one out of 27 delegates in the union representative council. Which is the highest determining instance at TLTH.	
	Peppare, D-guild TLTH,	2018-2019
	2018 was I part of a group called Pepparna. We were a group of 9 people whose main task was to support and aid the project group that was responsible for the introduction weeks at the D-guild. The role of peppare required a lot of problem-solving and teamwork.	
	Jubilee planner, D-guild TLTH,	2021-2022
	I was part of a team of five people that were tasked with planning our guild's 40th anniversary.	
	Event planner, Lundakarnevalen,	2022-2022
	I was part of a team of five people that was tasked with planning one of the biggest dinner events for people involved in Lundakarnevalen. My main area responsibility during the event was the bar and everything related to it.	
	Head of lounge, Teknikfokus, D-guild TLTH,	2019-2020
	During two subsequent years was I in charge of the lounge area during the Teknikfokus job fair. I planned how the lounge should look and every food that was available there. I had around 12 people that I managed and worked with.	
	Mentor, D-guild TLTH,	2020-2021
	During the introduction weeks was I part of a group responsible for mentoring a group of 20 or so new students at the computer science program at LTH.	
	Project Mentor, D-guild TLTH,	2020-2021
	During the introduction weeks was I part of a group responsible for mentoring a group of 20 or so new students who together in this group had to solve a task related to an introduction event.	
	Project Mentor, D-guild TLTH,	2019-2020
	During the introduction weeks was I part of a group responsible for mentoring a group of 20 or so new students who together in this group had to solve a task related to an introduction event.	
	Project Mentor, D-guild TLTH,	2017-2018
	During the introduction weeks was I part of a group responsible for mentoring a group of 20 or so new students who together in this group had to solve a task related to an introduction event.	
	International Mentor, D-guild TLTH,	2017-2018

During the introduction weeks was I part of a group responsible for mentoring a group of 30 or so international students.
